

Safety Information

1. Using a Triac Dimmer Switch

For best performance, use this bulb with a Triac dimmer switch. Using a dimmer that is not compatible can lead to issues such as flickering, buzzing, or even damage to the bulb.

2. Protect from Liquid Splashes

Always keep the bulb dry and away from any liquids to prevent short circuits, electric shocks, or other safety hazards.

3. Check Compatibility Before Installation

- o Ensure that the bulb's wattage, cap fitting, and dimmable functionality match your light fixture.
- o Use only Triac dimmer switch to prevent flickering, buzzing, or damage to the bulb.
- o Avoid using the bulb if the light fixture is damaged, corroded, or not securely installed.

4. Non-Replaceable Parts

This bulb does not contain any replaceable or serviceable parts. Do not attempt to open or repair it.

5. Switch Off Power Supply

Always turn off the power supply at the main switch before installing or removing the bulb to ensure safety.

6. Allow Cooling Before Removal

LED bulbs may become hot during use. Allow the bulb to cool down before removing it to ensure safety.

7. Dispose of Carefully

Dispose of the bulb responsibly, following local recycling or disposal regulations.
(for example, at a recycling centre or using a bulb recycling scheme).

Instructions for Use :

1. Replacement bulbs should be the same type and rating, available from paul russells or other established brands.
2. Gently clean the fitting with a soft, dry cloth. Avoid using abrasive or chemical cleaners, as they may damage the finish.
3. For glass parts, use a damp cloth to clean. Avoid abrasive materials, as they may damage the finish. Take care when handling glass parts to avoid damage or injury.

Troubleshooting Guide :

You've switched on the light, but it's not working:

- o Ensure that your power supply is turned on.
- o Switch off the light and ensure the bulb is securely and correctly inserted.
- o Check the bulb is still in working order.
- o For unresolved issues, consult a qualified technician or the paul russells support team.

Technical Compliance

- o This product complies with EN62560 standards for electrical safety and performance.

This marking indicates that this product should not be disposed of with other household waste throughout the UK and EU. To prevent potential harm to the environment or human health from uncontrolled waste disposal, please recycle it responsibly to encourage sustainable reuse of material resources.
