

Safety Information

1. Do Not Use with Dimmer Switches

These LED bulbs are not designed for use with dimmer switches. Using them with dimmers may cause flickering or damage to the bulb

2. Protect from Liquid Splashes

Keep the bulb dry and away from any sources of liquid to avoid short circuits or other potential hazards.

3. Check Compatibility Before Installation

- o Ensure the bulb's wattage and cap fitting are compatible with your light fixture.
- o Do not use the bulb if the fixture is damaged, corroded, or improperly secured.

4. Non-Replaceable Parts

This bulb does not contain any replaceable or serviceable parts. Do not attempt to open or repair it.

5. Switch Off Power Supply

Always switch off the power supply at the mains before installing or removing the bulb.

6. Allow Cooling Before Removal

LED bulbs may become hot during use. Allow the bulb to cool down before removing it to ensure safety.

7. Dispose of Carefully

Dispose of the bulb responsibly, following local recycling or disposal regulations (for example, at a recycling centre or using a bulb recycling scheme).

Instructions for Use

1. Turn off the mains power supply to the light fixture.
2. Ensure the fixture is clean and free from damage or corrosion.
3. Insert the LED bulb into the fixture, aligning the cap fitting with the socket.
Secure it by turning (or pressing) until it is firmly in place.
4. Turn the mains power supply back on.

Technical Compliance

This product complies with EN62560 standards for electrical safety and performance.

This marking indicates that this product should not be disposed of with other household waste throughout the UK and EU. To prevent potential harm to the environment or human health from uncontrolled waste disposal, please recycle it responsibly to encourage sustainable reuse of material resources.
